

Dave Barrie
Senior Vice President – Asset Management
Hydro One Networks Inc.

Biography

Dave joined Ontario Hydro when he immigrated to Canada in 1977. Between 1977 and 1997 Dave held various positions in both operating and planning the bulk electricity system.

In 1998, with the break up of Ontario Hydro into separate generation and transmission/distribution companies, Dave became General Manager of Transmission Network Asset Management in Hydro One, the newly formed wires company. In August of 2000 he took on his current role of Senior Vice President – Asset Management. In this position he is responsible for managing the transmission and distribution assets as well as day-to-day operations.

Dave is a member of the Institute of Electrical Engineers, U.K. and a registered professional engineer in the Province of Ontario.
