Electricity  
Association

Association  
canadienne  
de l'électricité

## The Sustainable Electricity™ Program

The Sustainable Electricity™ Program integrates sustainability into member company activities, fosters continuous performance improvement, and advances the public acceptance and support for utility operations in Canada. Member companies submit detailed annual reports on their performance in the five following areas.

3

Risk Management  
Systems

4

Building Relationships

1

Low-Carbon Future

2

Infrastructure Renewal  
and Modernization

5

Business Innovation
