

# CENTRE OF EXCELLENCE APPLICATION FORM

CoE  
2020

## ABOUT THE CoE

CEA's Centre of Excellence celebrates Canadian innovation and cutting-edge technology in the electricity sector. Whether it's a virtual plant providing residential customers with the ability to generate their own clean energy and augment the grid, or the world's first commercial-scale, post-combustion, carbon capture and storage unit, all Centre of Excellence projects are positively impacting the lives of Canadians and shaping our collective energy future.

## ABOUT THE DISTINCTION

CEA recognizes projects from all member companies in an annual ceremony on Parliament Hill. Members of Parliament, Senators, media and stakeholders are invited to a trade show style reception in which members discuss the positive impacts that projects have on customers, electrification and clean energy. Following the event, CEA packages the projects and continues to promote them on Parliament Hill as we advocate for infrastructure spending and innovative investments in smart grid and electrification. Projects presented can be at various stages, from design to execution to assessment and fall within several categories. Projects will receive recognition trophies at the Parliament Hill reception.

Canadian companies leading (or co-leading) innovative projects in the U.S. are also invited to submit applications highlighting their cross-border collaboration. The Canada-U.S. electricity relationship has positively served both countries for over 100 years, and CEA is pleased to recognize this mutually beneficial partnership.

Member companies working with University and/or College students on projects related to the electricity sector can submit initiatives on behalf of their student counterparts. As we work to grow the Centre of Excellence, we want to acknowledge the future of the sector.

## BENEFITS

- Featured in our monthly newsletter (Current Affairs)
- Added to our Centre of Excellence Website
- Used in CEA advocacy initiatives
- Trophy awarded during CoE event
- Promoted on all of our social platforms
- Published in our promo book
